PUBLIC SAFETY CENTER
Alexandria, VA

Project Description:

Construction of perimeter security crash wall, including reinforced concrete perimeter site wall, hydraulically activated high security vehicle barriers. Project constructed on fast track schedule at fully occupied 24 hour Public Safety Center, housing police station, sheriff's department, and city jail.

This was accomplished with our project management team and site supervision team. Our project management team surveyed, photographed, and developed a comprehensive construction schedule. Our site superintendent coordinated all the work and managed all contracting trades as necessary.

Owner:
City of Alexandria

Engineer:
Baker & Associates
