To Whom It May Concern:

This letter shall serve as my recommendation for The Russell Gage Corporation (TRGC).

TRGC recently completed the renovation of the Smart Car dealership in Alexandria. This project was completed ahead of schedule and within the Owner's budget.

My experience with TRGC's team was extremely professional and enjoyable. Gage's management was always organized and prepared for all meetings. The construction jobsite was kept clean and safe. Butch Okazaki, Site Superintendent, was extremely experienced and demanded quality work from the trade subcontractors. At all times he was organized and aggressively pushed the construction schedule keeping the work moving at an accelerated pace. Gage's project management was very detailed and organized. Schedules were updated regularly and meeting minutes were sent out timely.

The Russell Gage Corporation understands the team approach of working together. The cooperation surpassed anything in recent memory. I recommend them highly and look forward to working with them on future projects.

Sincerely,

A handwritten signature in black ink, appearing to read 'Andrew E. Schiefer', written in a cursive style.

Andrew E. Schiefer
President
